SERVERS ON AN EU PALLET

YOU WILL NEED

- EU Pallet
- Cardboard for the bottom (If you have, you can also place a peace between each layer)
- Wrapping plastic

HOW TO PACK

Stack the servers on the cardboard. Make the stacks as stable as possible.

REMEMEBER:

- The servers should <u>lie down</u>, not stand upright.

- Do not stack the servers higher than max 1 meter. Doing so might damage the bottom servers.

- Check that the servers are placed within the edges of the pallet.

- If you have cardboard available, please place cardboard between each layer.
